

RAGUNATH P

3D Artist

✉ ragupanneer222@gmail.com ☎ 7339441225 📍 Tiruchirapalli

Profile

Experienced 3D Artist with nearly three years of professional experience, proficient in Blender, Substance Painter, and Adobe Photoshop. Adept at creating high-quality, photorealistic 3D models and detailed textures for diverse projects. Strong understanding of modeling, texturing, lighting, and rendering workflows, with a focus on delivering production-ready assets. Passionate about innovative design and eager to contribute creativity and technical expertise to dynamic, forward-thinking projects.

Professional Experience

Junior Artist, Clover Design Group

February 2023 – February 2026
Tiruchirapalli

- **Created over 400+ high-quality, photorealistic 3D models for Amazon's product catalog, encompassing both hard-surface and soft-surface assets across diverse product categories.**
- Developed accurate textures, materials, and lighting setups to ensure realistic and visually compelling product representations aligned with brand standards.
- Optimized models for performance while maintaining exceptional visual fidelity and clean topology.
- Contributed to enhancing customer engagement and overall shopping experience through detailed and production-ready 3D visuals.

Education

Bachelor of Mechanical Engineering,
Karpagam college of Engineering

2019 – 2022 | Coimbatore, India

Skills

Blender

- Experience in both soft and hard surface 3D modeling for various projects.
- Creating photorealistic renders and basic animations
- Creating and maintaining clean Topology
- Proficient in designing and optimizing low-poly models for real-time applications.

SUBSTANCE PAINTER

- Proficient in creating high-quality textures for 3D models using Substance Painter.
- Skilled in designing and authoring complex materials to enhance the visual appeal of 3D assets

ADOBE PHOTOSHOP

- Proficient in using Photoshop for advanced image editing and retouching.
- Experience in enhancing photographs for clarity, color correction, and overall visual improvement
